The Associate Degree in Business and Technology from Australian School of Accounting (ASA) is designed to develop confident, competent, innovative and work-ready graduates with the analytical, conceptual and technical skills to contribute to business success, in a professional working environment.

Graduates will have interpersonal and communication skills that are required out in business. A graduate who has completed this course of study will have the practical application as well as the theoretical knowledge and skills along with sound judgement and, critical thinking to be ready for a position in business or the information technology industry such as:

- Assistant Business Analytics Officer
- Assistant Knowledge Officer
- E-Learning Support Officer
- Assistant Software Officer
- Business Technology Specialist
- Enterprise Software Integration Specialist
- Enterprise Application Integration Consultant

Graduates can use this study as an entry into an ASA Bachelor's Degree or exit with an Associate Degree in Business and Technology.

The primary mode of delivery is face-to-face in the following manner:

- Lecture – 1 hour per week per unit
- Tutorial – 3 hours per week per unit
- Online questions and answers (ASA Cafe) – 1 hour per week per unit
- Online materials are used wherever possible to supplement class-based learning and to maximise opportunities for students to engage in formative assessments, forums, group activities and case study analyses

Mode of delivery is face-to-face supported by blended learning.

Course Structure

This course of 16 units commences with at the 100 level six (6) core and two (2) electives that provide students with a strong grounding in the knowledge, skills and application required for business. These are followed by the next set of six (6) core units and two (2) electives covering business and technology at the 200 level:
